# Medicinal Cacao

“With cacao we can laugh, sing, dance, be creative, think, do yoga and most importantly be joyful and feel uplifted.”

~Anon

Our cacao is medicinal and one of the best ceremonial grades that has been sourced by a renowned shaman to facilitate deep healing.

This particular grade is from ancient heirloom varieties and is what makes this plant an actual medicine that heals on the physical, mental, emotional and spiritual level, in ancient times named ‘food of the gods’.

Cacao brings us in touch with our deepest emotions in a way that is loving, heart opening and gentle yet profoundly healing.

We have found that it is extremely effective in supporting the practices that we offer in that it potentiates their healing effects and integration, whilst simultaneously being deeply nourishing to the body in ways that are unique to this grade.
