# Faith Retreats

At Faith Retreats™, we help individuals connect with their inner power, finding profound meaning and direction in life. Our team of experienced therapists, mentors, and facilitators is ready to guide you toward self-understanding and personal growth.

Join us for our 6-day/5-night program to enhance your mental and emotional well-being. This transformational retreat combines traditional ancestral remedies and holistic therapies without adopting a pseudo-shamanic approach.

Ayahuasca, psilocybin, kambo and 5-MeO-DMT, revered by indigenous populations for their spiritual and healing properties, are integral to our program. These ancestral medicines help uncover buried emotions, promote self-knowledge, and address trauma and psychological challenges.

### Disclaimer

Faith Retreats™ does not provide psychoactive or controlled substances, nor are we licensed therapists, counsellors, or medical professionals. We are not spiritual guides or scientists; however, we offer you a safe set and setting, with an experienced team, so you can delve deep into your own ‘plant medicine’ journeys. We are a harm reduction company. We do not provide referrals to “underground” (illegal) psychedelic services.

Any information received through our services should be considered for educational purposes and not be misconstrued as medical or legal advice. Please use your discretion to ensure our services meet your needs.
